ISTE STANDARDS
FOR EDUCATORS

Implementation and adoption toolkit

Thank you for licensing the ISTE Standards for Educators for free permitted educational use. ISTE is here to help you every step of the way!

As you begin implementing or adopting the Educator Standards, this collection of tools and resources will help you use them to improve your practice. We've included resources, such as the SlideShare overview, to help you explain the standards to colleagues who may not be familiar with ISTE.

With the Standards, ISTE provides the roadmap, but we rely on educators like you to amplify learning and teaching to drive lasting change for students everywhere.

ISTE Standards for Educators

Download a PDF of the ISTE Standards for Educators.
For a digital "unpacking" of the standards, with definitions and examples, visit iste.org/StandardsForEducators.

License agreement

This agreement outlines how you can use the standards for permitted educational use. ISTE also offers agreements to reprint the standards in books or ebooks and licenses to use the standards in learning management systems, curriculum mappers, websites or other digital platforms. If you have questions about other ways to license and use the standards, please contact standards@iste.org or visit iste.org/standards.

Learning assets

Use these images in your social posts, digital presentations, blog posts and more.

- Overview SlideShare
  This slide deck explains the ISTE approach to our learning standards, the standards refresh process and an outline of the standards themselves. It's a great way to open or lead a discussion about the ISTE Educator Standards.

- Educator Standards yoga poster and growth plan
  This poster illustrates how to breathe into the Educator Standards and offers tips and strategies for infusing the standards into your practice, wherever you are.

- Orbit graphic
  Use this graphic, which lists all seven educator standards, in documents, slide decks, blog posts and other content.

Professional learning resources

Use these resources to better understand the standards so you can begin adoption and implementation.

- ISTE Standards for Educators booklet
  The ISTE Standards for Educators booklet offers tips for getting started with the standards for various educator roles, adoption and implementation strategies, and connections to other standards and frameworks. Purchase print and ebook versions from the ISTE Store at iste.org/EducatorStandards.

- Digital Learning Pathways courses
  The Digital Learning Pathways courses support teachers in making the crucial shift from traditional, teacher-driven education to future-focused, student-driven learning. These courses provide a knowledge base for how to lead with the learning. Sign up at istestandardspd.org.

- EdTekHub
  Visit the EdTekHub to see how educators from around the world are putting the standards into practice. This free resource at iste.org/explore is a great place to find inspiration and updates on all things related to learning with technology and standards implementation. Follow @isteconnects on Twitter for the latest from the EdTekHub and sign up for our newsletter at iste.org/subscribe.

- ISTE Standards community
  This open network is where educators discuss and share resources related to the ISTE Standards. Topics range from adoption and implementation to using the standards for specific grade bands or content areas. Join the conversation.
